EXPERIENCE

IT Support Engineer

BrightSideCo

Apr 2026 – Present

Kuala Lumpur

- Provide end-user technical support by resolving hardware, software, account, password, and laptop provisioning issues while ensuring timely service delivery.
- Administer Microsoft 365 services, including Microsoft 365 Admin Center, Exchange Online, SharePoint Online, and Microsoft Entra ID for user, group, mailbox, license, and access management.
- Manage cloud infrastructure by provisioning Microsoft Azure Virtual Machines, administering AWS EC2 instances, and maintaining domains and monitoring services through Cloudflare and Site24x7.
- Administer Salesforce by managing users, troubleshooting application issues, performing data import/export using Salesforce Inspector, creating Flows, implementing configuration changes, and supporting UAT testing.
- Support IT infrastructure projects, including the migration of the organization's ticketing system from Jira to osTicket using Microsoft Azure Virtual Machines.

IT Technical Support

DXC Technology

Dec 2023 – Mar 2026

Petaling Jaya

- Provide timely and empathetic support for end-user issues, resolving over 30 software, hardware, and networking tickets weekly.
- Manage the installation, configuration, and maintenance of IT systems, hardware, and user devices.
- Collaborate with cross-functional teams to improve system performance and support technology implementations.
- Author and maintain IT documentation and troubleshooting guides, reducing average call handling time by 15%.

Protege

Tenaga Nasional Berhad

Dec 2021 – Dec 2022

Kemaman, Terengganu

- Prepared reports and presentations for senior management by analyzing operational data and providing actionable recommendations.
- Designed and conducted surveys that produced comprehensive datasets for research and business analysis.
- Achieved a 90% overdue bill payment rate through effective customer communication and negotiation.
- Improved customer response time by 30% through efficient handling of pending requests and enquiries.

ICT Intern

Jabatan Kerja Raya

Sep 2020 – Feb 2021

Kemaman, Terengganu

- Gathered system requirements and developed an internal file management application using PHP, JavaScript, CSS, and MySQL within an Agile environment.
- Designed digital media, including videos and promotional materials, for organizational events using Filmora9.
- Produced official organizational charts, posters, and certificates using Adobe Photoshop and Microsoft PowerPoint.
- Provided desktop support, printer support, user account maintenance, and basic network troubleshooting for department staff.
